

ICT Classified -Chapter (8) - Safety and security

1

(a) Explain what is meant by Spam.

.....

.....

.....

.....

[2]

(b) Describe how web pages can be used to trick users into giving personal information.

.....

.....

.....

.....

.....

.....

.....

.....

[4]

3

.....

[3]

4	Complete the following sentences. (a) The action of sending emails to fraudulently obtain another person's bank details is called [1] (b) The action of illegally installing malicious code which redirects a person to a fraudulent website with the purpose of obtaining that person's bank details is called [1] (c) Unsolicited bulk emails are called [1] (d) The action of sending text messages to fraudulently obtain another person's bank details is called [1] Q4 – Page3 0417/11 May/June 2016
5	Internet banking can be used by bank customers to check their account balance. (a) Many ways of logging into such a system involve the use of passwords. Describe three methods of minimising the possibility of passwords being misused if intercepted. 1 2 3 [3] Q9 – Page5 0417/11 May/June 2016

6

Discuss the effectiveness of different methods which could be used to prevent unauthorised access to a laptop computer.

[illegible]

[8]

Q19 – Page14 0417/11 May/June 2016

7

There are a number of health and safety issues associated with the use of computers.

Draw arrows from the terms **Health** or **Safety** to the matching issue. Use a maximum of four arrows.

Health

Safety

Tripping over loose wires.

Heavy equipment falling off tables and injuring people.

Clicking a mouse repetitively causing RSI.

Overloading sockets causing fire.

[4]

Q4 – Page3 0417/11 May/June 2017

8

A student is designing a web page about herself which she plans to publish on the internet. The web page will contain a picture of herself as well as other details.

She has been advised by her teacher that she needs to be aware of e-safety.

Describe the e-safety issues that she should be aware of before she publishes this web page.

Q13 – C – Page13 0417/11 May/June 2017

9

You use a computer to do your homework. You are concerned about the health issues of using a computer.

Discuss the advantages and disadvantages of different methods you could use to help minimise the health problems of using the computer.

This image shows a full page of white paper with horizontal dashed lines, typical of primary school writing paper. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

[6]

Q15 – Page15 0417/11 May/June 2017

10	Email systems can receive spam emails. Explain why spam should be prevented. [2] Q15 – Page13 0417/12 May/June 2017
11	Midwest School library has a database system. Students who borrow books present their library cards containing their details. The librarian wishes to improve security by introducing biometric methods. (a) Name two direct input methods the cards could use. 1..... 2..... [2] (b) Give two examples of biometric input. 1..... 2..... [2] Q6 – Page5 0417/13 May/June 2017

Using computers can cause problems for the health and safety of users.

- [illegible]

[6]

1.
2.
3.

[6]

13

Key-loggers are thought to be security risks but they can be used to monitor and track the use of employees on a computer system.

(a) Describe how a key-logger monitors computer usage.

.....

.....

.....

..... [2]

(b) A small minority of employees in a company have been using the computers for non-business use, so the company has had to introduce other methods of monitoring their use of ICT.

Apart from key-logging list **three** other ways that employees could be monitored in their use of ICT.

Q13 – Page12 0417/13 May/June 2017

14

Tick whether the following refer to **moderated** or **un-moderated** forums

	moderated (✓)	un-moderated (✓)
All posts are held in a queue.		
Posts are not policed.		
This forum reduces the chance of offensive messages.		
This forum stops several postings of the same topic.		

[2]

Q6 – Page4 0417/11 May/June 2018

15

Using computers can lead to a number of physical safety issues.

Describe **four** of these types of issue.

1

.....

2

.....

3

.....

4

.....

[4]

Q13 – Page12 0417/11 May/June 2018

16

When people use the internet they run the risk of their computers being infected by viruses.

A file, containing a virus, is downloaded from the internet.

(a) Describe the effects the virus could have on their computer's hard disk.

.....

.....

.....

.....

.....

.....

[3]

(b) Explain another way the computer could have become infected with a virus.

.....

.....

.....

.....

[2]

Q11 – Page12 0417/12 May/June 2018

17

Tick **four** health issues associated with the continual use of computers.

	Tick (✓)
Virus	
Backache	
Electrocution	
Fire	
RSI	
Tripping	
Eye strain	
Overheating	
Headache	
Heart attack	

[4]

Q13 – Page14 0417/12 May/June 2018

18

As banks reduce the number of branches due to the increased use of online banking system, improved security of customer data is needed. Many banks are introducing biometric systems to secure customer data.

(a) Explain, using examples, why biometric systems are more effective than other methods of security.

.....

.....

.....

.....

.....

.....

[3]

Q15 – Page15 0417/12 May/June 2018

19

Describe the following security issues.

(a) Phishing

.....

.....

.....

.....

[2]

(b) Pharming

.....

.....

.....

.....

[2]

(c) Smishing

.....

.....

.....

.....

[2]

Q6 – Page5 0417/13 May/June 2018

20

Continuous use of computers can lead to a number of health issues.

In the table there are some recommended ways to minimise specific health issues. For each way, identify the most appropriate health issue it is trying to minimise.

Identified health issues must be different in each case.

Ways of minimising the health issue	Health issue
Use ergonomic keyboards.	
Use fully adjustable chairs to give correct posture.	
Change to LCD screens from CRT screens.	
Have the monitor at the correct height.	

[4]

Q14 – Page12 0417/13 May/June 2018

As more and more people use the internet at home to carry out transactions they are at risk of downloading software that could corrupt files or copy credit card details.

Discuss the effectiveness, or otherwise, of using different methods of increasing the security of a home computer.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

[8]

Q18 – Page16 0417/13 May/June 2018

22

John has realised that his younger sister is using social media websites. During her use she may reveal personal data.

(a) Explain what is meant by personal data.

.....

.....

.....

.....

.....

.....

.....

.....

[4]

(b) Describe the strategies that John would suggest to his sister so that she can minimise the potential dangers whilst using social media websites.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[6]

Q11 – Page12 0417/11 May/June 2019

23

Email is a service provided by the internet.

For each of the following problems, associated with email, describe methods of protecting your data.

(i) Spam

.....

.....

.....

.....

.....

.....

.....

.....

[4]

(ii) Viruses

.....

.....

.....

.....

.....

.....

.....

.....

[4]

Q6 - b – Page9 0417/12 May/June 2019

24

As our use of the internet increases e-safety becomes essential.

Discuss why e-safety is needed.

[illegible]

[8]

Q15 – Page15 0417/12 May/June 2019

25

Phishing, pharming and smishing can affect the security of your data.

For each of these security issues describe the methods which you could use to try to prevent them.

(a) Phishing

.....

.....

.....

.....

[2]

(b) Pharming

.....

.....

.....

.....

[2]

(c) Smishing

.....

.....

.....

.....

[2]

Q6 – Page4 0417/13 May/June 2019

26

Name **three** physical safety issues associated with the use of ICT equipment, and for each one, suggest a possible method to help to prevent the issue. The methods should be different in each case.

Issue 1.....

.....

Method.....

.....

Issue 2.....

.....

Method.....

.....

Issue 3.....

.....

Method.....

.....

[6]

Q10 – Page11 0417/13 May/June 2019

27

Phishing and pharming can affect the security of a user's data.

(a) Compare and contrast phishing and pharming.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[6]

(b) Smishing is another security issue. Describe the methods which can be used to help prevent smishing.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[6]

Q5 – Page7 0417/11 May/June 2020

28

Following recent data protection issues the personal data we allow organisations to share about us may be reduced.

(a) Discuss the benefits and drawbacks of trying to keep personal data confidential and secure.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[6]

(b) The sharing of email addresses can lead to spam.

Explain what is meant by the term spam email.

.....

.....

.....

.....

[2]

(c) Explain why spam email should be prevented.

.....

.....

.....

.....

.....

.....

.....

.....

[4]

Q8 – Page9 0417/11 May/June 2020

29

Most data protection acts include the principle that data should be accurate and, where necessary, kept up to date.

List **four** other principles of a typical data protection act.

- 1.....
.....
- 2.....
.....
- 3.....
.....
- 4.....
.....

[4]

Q11 – Page14 0417/11 May/June 2020

30

The way we buy products using credit cards has changed in recent years. Originally the magnetic stripe on the back of the card was used with a signature. Then chip and PIN methods were used, and more recently contactless methods have been introduced.

Discuss the effectiveness of using these different methods to improve security when paying for goods.

[illegible]

[8]

Q12 – Page15 0417/11 May/June 2020

31

Smishing and phishing can affect the security of a user's data.

(a) Compare and contrast smishing and phishing.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[6]

(b) Describe the methods which can be used to help prevent phishing.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[6]

Q6 – Page8 0417/12 May/June 2020

32

(a) Describe repetitive strain injury (RSI) and explain what causes it.

.....

.....

.....

.....

[2]

(b) Give three ways of minimising the risk of RSI.

1.....

.....

2.....

.....

3.....

.....

[3]

Q12 – Page13 0417/12 May/June 2020
